# BrainCube Enterprise Solutions Pvt Ltd-

## The Company

BrainCube Enterprise Solutions Pvt Ltd started its journey in the year 2012 as freelancer and IT consultants. In 2016 we changed our organizational structure for providing IT solutions offering the best service and support available anytime, anywhere and also was incorporated as a private limited company. We are now into System Integration, Web Solutions, Cloud solutions, E-commerce solutions, IT infrastructure solutions, Software's and more.

Technology's sole purpose is to help achieve organizational goals. The business came first. When that is clearly understood, IT leaders can find and present strategic ways to leverage technology, and become more relevant and legitimate to the organization and we have the solutions to do just that.

# Why BrainCube?

Now a days due to lack of knowledge most of the companies are considering that investing in IT is a waste of time and money, but the fact is proper implementation of IT can reduce their operational cost and can increase the productivity. This is why we are for, our experience in IT can give our clients the best in class solutions and services with the lowest investment.

We relish the opportunity to implement ambitious projects in challenging environments. We fervently believe that, by providing technologically advanced facilities which conform to stringent standards of efficiency and security, we can make a significant contribution to stabilization and development.
